

BE THE CHANGE

©2023 Susan Werner (Frank Chance Music, ASCAP)

i remember my mother
she made a better life
for every child in sight
and us
and everybody on the bus

i remember my father
worked hard but he worked fair
so everyone could share in success
cause thats how you do it, yes

you've got to be the change you want to see in the world

i take after my sister
stood proud, her head held high
spoke truth and shook the sky
with words/that nobody'd ever heard

i take after my brother
stood proud in six inch heels
fought fierce for his ideals
of love
everybody's worthy of

you've got to be the change you want to see in the world
you've got to shine the light
shine shine into the night

seize the day
every little thing you do
every little word you say
every him and her and they
you've got to be the change you want to see in the world
